

“Unleashing the Power of Technology”

**Federal
Engineering®**

FOR IMMEDIATE RELEASE

Dominic Tusa Joins Federal Engineering

FAIRFAX, VIRGINIA, January 8, 2024 — Dominic “Nick” Tusa, the founder and former president of Tusa Consulting Services has joined Federal Engineering, Inc. (**FE**).

Mr. Ronald F. Bosco, President & CEO of Federal Engineering said: “We are delighted that Nick Tusa has joined our firm. With 34 years of experience in land mobile radio consulting, he brings unprecedented knowledge of the industry and will help further accelerate the growth of our public safety mobile radio consulting practice, which is already the largest in the country. Nick will also serve a critical role in our expansion into several new and exciting markets.”

Mr. Dominic Tusa added: “I have known Federal Engineering for over three decades and am thrilled to now be part of their team. **FE** is a market leader in our industry, and I look forward to working with the firm’s management to serve the wireless communications needs of public safety clients and others.”

Federal Engineering is a leading, nationwide firm providing analysis, design, procurement, and implementation support for public safety and public service communications involving traditional VHF, UHF, 700 MHz, 800 MHz, 900 MHz, and 4.9GHz mobile radio systems as well as LTE and CBRS. These services complement **FE’s** wide range of dispatch center consulting services in NG911, PSAPs, RTTCs, ECCs, and EOCs. **FE’s** cybersecurity practice helps our clients defend against today’s complex and ever-changing threat landscape. **FE** personnel also serve as trusted advisors assisting clients to assess emerging services such as FirstNet® and the impacts of new technologies on their current and future plans. Since 1983, **FE** has completed thousands of communications projects in all 50 states for numerous state, local, and federal government clients as well as Canadian clients.

In addition to its public sector work, Federal Engineering provides design and implementation support services for voice, data, and video networks used in the transportation, utilities, finance, education, and computer services industries. **FE’s** certified independence ensures that clients receive objective, unbiased consulting services that are not influenced by any technology, product, vendor, or approach.
